Less congestion More congestion

 COVID-19 restrictions COVID-19 severe restrictions**Relative difference of average congestion levels in 2020 from standard congestion levels in 2019.**

Daily and weekly differences are based on weighted averages derived from hourly data. Each week starts on Monday and ends on Sunday. The daily standard congestion level for each weekday represents the daily average for that weekday over 2019. The weekly standard congestion level represents the mean of average weekly congestion levels in 2019.

Full-year historical traffic data

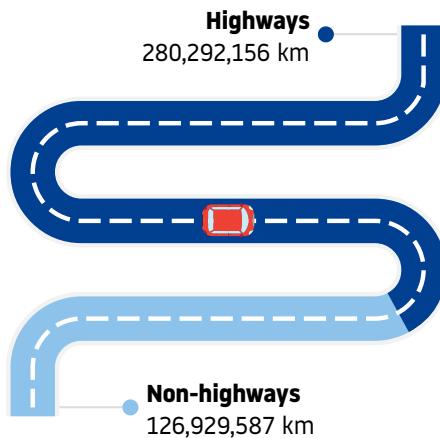

Created to help you tackle traffic – as a driver, city planner, automaker or policy maker – the TomTom Traffic Index provides detailed insights on road congestion levels in cities around the world.
